Product Description

The STIHL TS 420 is a compact and powerful 14" cut-off machine built for professional construction, concrete, asphalt, and metal cutting applications. Featuring a high-performance STIHL 2 CYCLE-MIX engine, water connection for dust suppression, and anti-vibration system for operator comfort, the TS 420 delivers reliable cutting performance on demanding job sites. Designed for durability and easy maintenance, this saw is ideal for contractors, landscapers, and utility crews needing precision and power in a lightweight package.
