Product Description

STIHL BRA 600 Battery Powered Backpack Blower (Unit Only)

No Power Compromise: As strong as our BR 600 but capable to be used in noise reduced areas, the BRA 600 is the next best tool for any landscaping crew.

The BRA 600 battery-powered blower, compatible with the AP 500 S battery, features an exceptional power-to-weight ratio for heavy-duty work and optimal operator comfort. The rotary motor with Noise Reduction System allows users to operate in noise-sensitive areas. The HMI display puts diagnostics and applications like cruise control right at your fingertips. With four speed levels including Boost and ECO modes, this blower allows for customized performance. Comfort features like cruise control and the three-point harness with optional lap belt help optimize operator comfort. Engineered with IPX4-rated weather-resistant construction, this powerhouse is designed and tested for splash-water protection.
