Product Description

STIHL GS 461 Rock Boss 16" Concrete Cutter

Lightweight, easy to maneuver, fast-cutting concrete cutter for deep cutting and cutting corners.

When you need to cut deep into concrete, reach for the Boss - the STIHL GS 461 ROCK BOSS®. This revolutionary concrete cutter changes the game with enhanced performance that cuts up to 15.7" deep into concrete, reinforced concrete (with rebar up to ½ inch), cinder blocks, masonry bricks, asphalt and soft stone. And it does all of this in a compact, lightweight package that is easy to maneuver and transport.

It's a great addition to your construction site when you need to get serious with concrete materials. And because it's a STIHL, you know it delivers excellent performance. The GS 461 ROCK BOSS® features include a low exhaust emission engine, HD2 heavy-duty air filter, advanced water controls, low vibration, and our exclusive Diamond Abrasive Chain.
