Product Description

STIHL KMA 80 R Battery KombiSystem

A powerful addition to the AK System, the KMA 80 R takes on a variety of tasks with up to 14 optional attachments.

The KMA 80 R is part of the AK Homeowner Battery System. It is made with the same durable components as the gas-powered KM 56 RC-E and works with 14 optional attachments that are interchangeable between both KombiMotors. Featuring a brushless motor for a virtually maintenance-free experience and high RPMs for powerful performance, the KMA 80 R is built for efficiency.

The set comes with the FS-KM trimmer line attachment, AK 30 battery, and AL 101 charger in the box.
