Product Description

STIHL KOA 20 Battery Compressor/Inflator

AS battery-powered air inflator built for high-pressure and high-volume applications

The KOA 20 is an AS battery-powered air inflator with a compact, lightweight design that allows for easy storage and transportation. Ideal for airing up tires, air mattresses, and other inflatables, the KOA 20 features an HMI display that allows the user to set the desired pressure or volume and automatically compensates for altitude. With onboard storage for the included hose and nozzles and built-in LED flashlight, the KOA 20 is ready to go whether you're taking it to the jobsite, on vacation, or just out to the garage.
