Product Description

STIHL SEA 50 Battery Powered Vacuum

The STIHL SEA 50 is a compact, cordless wet and dry vacuum cleaner built for serious flexibility. No cords. No compromises. Just clean.

The STIHL SEA 50 is the vacuum cleaner that proves size isn't everything. Designed for demanding users who need power without the bulk, it delivers best-in-class suction with 160 mbar of pressure and 460 gallons per minute of airflow. Whether you're cleaning out your truck, tackling a dusty workshop, or navigating tight corners in a stairwell, the SEA 50.0 goes wherever the mess is. Its lightweight build, shoulder strap, and optional wheeled cart make it easy to carry or roll, while the thumb toggle suction control lets you adjust power on the fly. With constant output from start to finish and onboard accessory storage, this vacuum is ready for serious work. It's compact and designed to impact your cleaning game.
