Product Description

STIHL TSA 500 STIHL Cutquik Battery Powered Cut-off Machine (Unit Only)

STIHL'S MOST POWERFUL BATTERY-POWERED CUT OFF MACHINE. Meet the STIHL TSA 500—your new go-to for high-performance cutting without the drawbacks of gas.

This 14" battery-powered cut-off machine delivers a massive 5 kW of engine power, rivaling the TS 500i gas model. Designed for professionals, it features a brushless motor protected by STIHL's Magnetic Filter system, an ergonomic handle for precision cuts, and a magnesium guard with integrated water flow for safety and visibility. The Advance Plus control system offers intuitive operation and smart connectivity, while the IPX4 waterproof rating ensures durability in tough conditions. At just 28.8 lbs. with two AP 500 S batteries, the TSA 500 is powerful, portable, and ready to quickly and efficiently cut through concrete, steel, and more.
